OREGON

Highlights of the
economic impact from
Oregon highbush
blueberry growers

IMPACT

Annual economic impact
generated by growers:

**~\$353.5
million**
(\$968,445/day)

JOBS

Full-time equivalent jobs
created and sustained by
growers each year:

3,505

INDIRECT BUSINESS TAXES

Indirect business taxes
generated by growers:

(not including income taxes)

**~\$6.6
million**
(\$18,200/day)

That's more than a third
of the 2019 budget for ...

Oregon Water
Resources
(\$19.4 MILLION)

*NOTE: Oregon uses a two-year budget.
These stats assume budgeted dollars are
equally split between the two years.

FOOTPRINT

Oregon highbush
blueberry acreage*:

14,050

*Bearing and nonbearing acres

LABOR INCOME

Labor income generated
by the business activities
of growers:

**~\$121.8
million**
(\$333,850/day)

These dollars go into wages and salaries for new employment, as well as expanded incomes to those already in the labor force for activities such as overtime pay. These dollars are then diffused throughout the economy as the funds are spent on crucial goods and services such as food, housing, transportation and health care.

“The U.S. highbush blueberry industry — including nearly 940 blueberry farms in Oregon — is a powerful financial force. Behind every farm are growers who not only tend a truly remarkable superfruit, but also stimulate business activity, create thousands of jobs and contribute mightily to the economy.”

— Kasey Cronquist | President
U.S. Highbush Blueberry Council

About the Study

The economic impact study was commissioned by the U.S. Highbush Blueberry Council and conducted in April 2020 by Dennis Tootelian, Ph.D., Emeritus Professor at California State University, Sacramento. The analysis is based on U.S. highbush blueberry acres in production and in development. Projections are based on annual average expenditures, which means that this impact is expected to occur each year that such spending occurs. Acreage statistics were secured from the U.S. Department of Agriculture. The full economic impact study and analysis is available at www.ushbc.org.
